EcoBalt2027

Riga · Latvia · Sep 29 – Oct 1

UNIVERSITY OF LATVIA

FACULTY OF MEDICINE AND LIFE SCIENCES

We cordially invite you to the **25th Anniversary International Conference** on **Environmental and Analytical Chemistry**, taking place in Riga, Latvia.

As a premier Baltic–region forum for environmental scientists, ecologists, chemists, materials scientists and toxicologists, **EcoBalt** continues its biennial tradition across the Baltic capitals.

This landmark **jubilee conference** will bring together leading experts and early–career scientists to discuss innovative solutions and to explore emerging challenges at the cross-roads of chemistry, sustainability and innovation.

University of Latvia
Faculty of Medicine and Life Sciences
Jelgava street 1, Riga

September 29th – October 1st, 2027

ecobalt2027@lu.lv

Conference Topics:

1. **Advanced Analytical Chemistry**
   Novel methods, instrumentation and sensor technologies

2. **Future–Forward Environmental Analysis**
   Emerging contaminants, monitoring strategiesand risk assessment

3. **Climate–Positive Innovations and New Applied Materials**
   Green materials, circular economy and low–carbon solutions

4. **Advances in Food Safety and Quality**
   Analytical approaches, contaminant detection and food authenticity

5. **Sustainable Solid–Form Design for Pharma and Functional Materials**
   Crystal engineering, polymorphism and formulation science
